**\*\*\*\*\*PLEASE READ FOR CHANGE IN SURCHARGE EFFECTIVE DATES AND DISTRIBUTION OF SURCHARGE AND LEADTIME\*\*\*\*\***

March 12, 2021

Subject: **Current Surcharge**

**DUCTILE IRON \$ .3700/ #**

**GRAY IRON \$ .3514/ #**

The current cost, base cost, amount of change, and formulas used to calculate our metal and energy surcharges are noted below.

	Current Cost	Base Cost	Amount of Change	Surcharge Amount
Ductile	<b>\$865.87</b>	\$ 100.00	<b>\$ 765.87</b>	<b>\$ .3214#</b>
Gray	<b>\$818.34</b>	\$ 96.79	<b>\$ 721.55</b>	<b>\$ .3028/#</b>
Energy - Gas	<b>\$ 2.94</b>	\$ 3.610	<b>\$ (0.67)</b>	<b>\$ (.0011)/#</b>
Energy - Electric	<b>\$ .0787</b>	\$ .0290	<b>\$ .0497</b>	<b>\$ .0497/#</b>

Metal Calculation: Amount of change divided by 2240 (pounds per gross ton) multiplied by .94 (percent of charge that is metal) = metal surcharge per pound.

Energy Calculation:

Gas - Amount of change multiplied by 0.001628 (MMBtu of gas used per pound of good castings)

Electric - Amount of change multiplied by 1 (KW of electricity used per pound of good castings) = energy surcharge per pound.

The new effective date for the surcharges noted above will be April 1, 2021.

**Surcharge is now calculated and available by the 22<sup>nd</sup> of every month and will be effective the 1<sup>st</sup> of the following month. The next surcharge rate will be available April 22, 2021 and will be effective May 1, 2021. Due to rising security risks causing email delivery issues, surcharge and leadtime will no longer be distributed via email. This information is available on the Rochester Metal Products website at [www.rochestermetals.com](http://www.rochestermetals.com) for your convenience.**

We strive to provide you with the best service possible and hope that providing this information to you via the website will streamline the surcharge and leadtime process for you. Please let us know if you have any questions or concerns, and we would be happy to assist you.

Sincerely,  
Richard Bean  
Director of Sales & Marketing
